EXPERIENCE

JUNIOR FULL-STACK DEVELOPER - DISC N DRIVE
JUNE 2026 – PRESENT

- Built responsive pages from scratch and converted UI designs into HTML and CSS interfaces.
- Implemented Vanilla JavaScript functionality using DOM manipulation, event handling, and API calls.
- Completed assigned React.js projects with reusable components and hooks and Next.js projects involving pages and routing.
- Used Git and GitHub while completing development tasks under senior developer guidance.

FREELANCE
MARCH 2024 – PRESENT

- Worked on multiple freelance projects individually and with teams as contributor.
- Developed responsive web solutions based on client requirements, implementing UI designs and refining interfaces through iterative feedback..

PROJECTS

- LOCALPLAY VIDEO PLAYER
  JAVASCRIPT · HTML5 VIDEO · FILE API · WEBVTT . JSON
- GROCERY PRICE COMPARISON & TREND ANALYSIS
  PYTHON . DATA SCIENCE . EDA. ML
